CNC PROGRAMMER

We are currently seeking an experienced CNC Programmer capable to perform all aspects of CNC processes. This role requires the ability to read and interpret technical blueprints, some mechanical aptitude, and strong attention to detail. If you are dedicated and ambitious, a career at Vesta Marble and Granite is an excellent place to grow your career.

QUALIFICATIONS:

- Minimum 2 years of CNC programming experience in a manufacturing environment;
- Ability to work with composite materials such as granite, marble, and quartz slabs is an asset;
- Ability to analyse and interpret specifications to determine manufacturing feasibility.

SKILLS:

- Excellent communication and time management skills;
- Problem solving and creativity;
- Ability to work independently and follow directives; and
- Knowledge of AlphaCam will be considered a strong asset.

RESPONSIBILITIES:

- Oversee the efficient operation of all CNC machines;
- Adjust machine cutting paths or setting to optimize production while maintaining quality;
- Provide support to CNC operators troubleshooting with appropriate machine representatives in case of machine breakdowns;
- Select all appropriate machining operations to ensure efficient production of required jobs; and
- Implement any new procedures that will reduce production time for all CNC programs.

If this position sounds perfect for you, please send us your resume to start the conversation.
