Controller

As a financial leader for the organization, this critical role will oversee all accounting operations and will offer advice on financial and organizational decisions using strategic financial planning.

The Responsibilities

To be successful in this role, you will work closely & confidentially with the CEO and Senior Managers, as a leader who:

- Maximizes return on financial assets by assisting in development and/or establishment of financial policies, procedures, controls & reporting systems.
- Guides financial decisions by making recommendations and/or assisting in development, establishment, monitoring & enforcement of relevant policies & procedures.
 - Provides status of financial condition by collecting, interpreting & reporting on financial data.
 - Monitors & confirms financial health by conducting audits & providing information to external auditors.
 - Prepares budgets, establishes schedules, monitors collections and analyzes & consolidates financial data.
- Achieves budget objectives by expenditure planning, analyzing variances & initiating corrective actions, as needed.
- Complies with federal, provincial & local legal requirements by keeping abreast of relevant legislation, enforcing adherence legislation, filing financial reports & advising management on needed actions when required.

The Requirements

To effectively navigate the responsibilities of this role, you require:

- 10+ years strong commercial and/or retail experience, preferably within the construction industry.
 - 7+ years in-depth experience in a financial leadership role.
